Service Change Description

Existing Service

Route 120 is one of SamTrans' highest ridership and most productive routes. It operates every 15 minutes or better seven days a week. Public input suggested that reliability could be improved on Route 120.

Recommended Changes

Coverage (Where it goes)

The current routing of Route 120 would not change. Route 120 would be extended to Mission Hills Park, the existing end point for Route 121, improving access to this residential neighborhood. This change is paired with shortening Route 121 to end at Daly City BART to avoid duplication with Route 120.

Frequency (How often it runs)

Frequency on Route 120 would improve from every 15 to every 10 minutes for an additional hour on weekday afternoons. Service on weekend evenings would improve to every 15-30 minutes, compared to every 45 minutes today.

Hours of Service (When it runs)

Hours of service would not change in the recommended network.
