

# Routes 37/39

## School Route

## Service Change Description

The proposal for these routes improves efficiency and maintains service for nearly all areas and riders. Routes 37 and 39 would be consolidated into one route that preserves the direct connection between South San Francisco neighborhoods and Alta Loma Middle school. The proposed consolidated route would serve Route 39 stops west of El Camino Real before serving Route 37 stops east of El Camino Real.

All high ridership stops would continue to have service. Riders who use stops along Orange Avenue west of El Camino Real would need to board at Orange Avenue and Fairway or walk to Camaritas Avenue and Arroyo Drive.

Travel time for existing Route 37 riders would be up to 10 minutes longer. Route 39 riders would not see a change to their trips.
