

Route EPX

East Palo Alto — Redwood City — SFO — San Bruno BART

Hours of Service

	Weekday	Saturday	Sunday
Existing	—	—	—
Recommended	5:00 AM-9:00 AM, 3:00 PM-7:00 PM	—	—

Service Change Description

Coverage (Where it goes)

Route EPX would be a new limited-stop route connecting East Palo Alto and Redwood City to the San Bruno BART Station on weekdays, with a stop at SFO International Airport. This route was identified in the US-101 Express Bus Feasibility Study (SamTrans, November 2018).

A recommended service called “on-demand” would be provided in East Palo Alto. This service allows people to call or use a mobile app to schedule a ride from where they are to where they want to go within a certain zone. This service would connect riders directly to places in East Palo Alto and to bus routes 281, 296, and EPX to reach more destinations.

Frequency (How often it runs)

Route EPX will operate every 60 minutes during peak hours.

Hours of Service (When it runs)

Route EPX will run during peak periods on weekdays.
